

ODIS Software, Workshop Tools and Special Equipment

All Volkswagen / Audi Special Tools and Workshop Equipment are available for purchase to residents of the US and Canada through Snap-On Business Solutions, a division of Snap-on Tools.

Access to the tool catalogs can be obtained at:

<http://tools.vw.com> and <http://tools.audiusa.com>

To contact them directly:

Toll-free in the US and Canada: (800) 892-9650

From outside the US and Canada: (262) 656-5200

E-Mail To: vwaudi@snapon.com

ODIS Software: Diagnostic software is also required for the VAS device to function. Software is obtained thru the websites at:

www.vw.techliterature.com/consumer/home.aspx or

www.audi.techliterature.com/consumer/home.aspx

The software is available online through the Audi and VW sites. Select the literature type "Diagnostics, key word "ODIS" for the "ODIS Installation DVD". Each DVD costs \$20.00. Only one is needed to cover all brands.

Note: A Hardware ID, a License and a separate subscription are required for each brand in order for software to function. Periodic software updates are included with each subscription. Please refer to the "Vehicle Diagnostics" section on the erWin home page for further details.

Rental Program: The VAS6150B, VW and Audi Specific Diagnostic Tester used for certain diagnostic functions, may be rented by residents of US and Canada from Arvato Corporation.

A VAS 6150B configured with the proper software is shipped overnight.

- Leasing fee \$200 per week
- Deposit of \$6000, secured by credit card, fully refunded upon return receipt of the tester in good working order within 7 days.
- Additional time: \$100 per day beyond the 7 working day period.

For Rental please contact Arvato at (800)544-8021
